69	*1/ Milk/cow/day calculation uses an approximation that 87% of all cows are in milk while the rest are dry.																						
70	** PA Daily Feed Costs = Corn, Soybean, and Hay at 100 lbs/milk																						
71	*** IOFC (\$/cow/day) = Pmilk/100*65 - Daily Feed Cost for 65 lbs of milk																						
72	**** Milk Margin (\$/cwt) = Pmilk - (Daily Feed Cost for 65 lbs of milk)/65*100																						
73
